ABOUT THE ARTIST

BIOGRAPHY

Electronic music DJ and producer, born on Margarita Island (Venezuela) in 2002 and based in Barcelona.

He grew up surrounded by the Caribbean, among the salsa, merengue and drums on every corner, which is why rhythm has always been at the heart of his music. At 13 a DJ friend taught him the basics of the craft, and curiosity soon became an obsession.

He started at private parties, where he learned to read the dancefloor. With his charisma and the support of his community, he reached the best clubs on Margarita while still very young.

His sound blends tech house and afro house with groove, punchy percussion and a nod to his Latin roots, in sets that move from hypnotic to explosive.

In Barcelona he stepped into the studio, and today he combines the booth with producing his own tracks and edits. He has played in Venezuela, Colombia, Spain, the Netherlands and Italy, and keeps growing as one of the new voices of the international electronic scene.
